

POUCHES vs BOTTLES

Reducing your environmental footprint is our strength.

When you choose Atlapac's spouted stand up pouches you get more than just another pretty package. You gain the benefits of lower energy consumption, lower solid waste generation and less greenhouse gas emissions than most rigid packaging alternatives. In addition, transportation energy requirements are dramatically reduced which shows consumers your commitment to the issue of sustainability and providing a smaller environmental footprint. With Atlapac's spouted stand up pouches, you can be assured that not only will you enjoy the benefits now, but well into the future.

Spouted Stand Up Pouches

Rigid Plastic Bottles

 <p>One truckload of quart size spouted stand up pouches contains 364,000 pieces on 26 wooden pallets.</p>	 <p>Nine truckloads of quart size bottles contains 364,000 pieces on 234 wooden pallets.</p>
 <p>One truck getting 4 MPG on an average 1,000 mile inbound freight trip uses 250 gallons of fuel.</p>	 <p>Nine trucks getting 4 MPG on the same 1,000 mile inbound freight trip use 2,250 gallons of fuel and emit 9x's the amount of greenhouse gasses.</p>
 <p>\$1,400 freight cost for the 1,000 mile inbound trip @ \$1.40 per mile.</p>	 <p>\$12,600 freight cost for 9 of the same 1,000 mile trips.</p>
 <p>Two man hours to load and unload 1 truckload of spouted stand up pouches.</p>	 <p>Eighteen man hours to load and unload 9 truckloads of plastic bottles.</p>
 <p>Fifty-two forklift trips to load and unload 1 truckload of spouted stand up pouches.</p>	 <p>Four-hundred-sixty-eight forklift trips to load and unload 9 truckload of plastic bottles.</p>

Spouted stand up pouches have 9x's less effect on the earth than rigid plastic bottles.

- 9x's less warehouse space required
- 9x's less landfill space consumed
- 9x's less consumption of wood for pallets and paper for corrugate
- Pouches use 40% of the plastic of the same size rigid bottle
- Pouches provide a larger decorative area to get your message across
- Pouches prove to the consumer that your company is concerned with the Earth, its resources and the health of its inhabitants
